THE IS-INCH AMERICAN HIGH-SPEED
LATHE:

Is particularly adapted to operate on work ranging from 1 inch to 4 inches diameter. It is designed throughout to meet the special requirements of modern high-speed tool steels. It has been the aim to place the limit of work at the tool rather than at the belt, and, with this end in view, it has been given enormous belt power—such that the contact of belt on the smallest size of the cone is greater than on the or dinary seinch lathe. The rand feed-chancing incehanism is positive, and capable of feeling. THE TESTS listed below were made on bars of commercial machinery steel with tools of a well-known brand of high-speed fool steel, which were in each experiment cutting dry and tested to the breaking-down point. breaking-down point ACTUAL RESULTS:

425 FEET FER MINUTE on a roughing cut-record without a precedent or parallel. The last withstood this exceptional strain without signs of fistress, and shows the trend of modern possi-dities in rapid work production. Headetocks built to suit your special require-nents.

pany. MRS. KEPPEL CAPTURES

TWO FULL-GROWN BURGLARS. SPECIAL BY CABLE TO THE NEW YORK HERALD AND THE ST. LOUIS REPUBLIC. London, May 30 .- (Copyright, 1903.)-Mrs. George Keppel is in receipt of many congratulations from friends on the coolness she displayed in tackling, not one, but two, full-grown burglars

She arrived at her house in Portmar Square about twenty minutes past 11 in the evening. Going upstairs she found her bedroom door open and the electric light switched. On entering her room she saw two men and coolly asked: two men and coolly asked:
"What are you doing here?"
One of the men echoed: "Yes, what are
we doing here?" Then both walked quietly
past Mrs. Keppel downstairs.

She did not screem, but equally quietly walked after the burgiars. In the ball she said to them: "It is no use in your trying to get away; you are caught." Thereupon the men quietly awaited the advent of a policeman, Mrs. Keppel standing by. All this was aired in the police court, where, however, Mrs. Keppel was not required to attend.

ner of Brooklyn Handicap.

REPUBLIC SPECIAL.

New York, May 30.—It has been practically decided to start Irish Lad in the American Derby at Chicago on the opening day of the Washington Park meeting, June 30.—Harry Payne Whitney said to-day:

"Mr. Duryea has something to say about Irish Lad's coming campaign. I believe the colt can win out at Chicago, and of course it would be a fine thing for the horse and for ourselves to capture such a famous race as the American Derby has been for years."

The fact that there has been a rush of Easter money into the Chicago future books on Irish Lad in the American Derby is regarded as confirmation that the East will be represented in the Derby by the winner of the Brooklyn Handicap. ner of Brooklyn Handleap.
